Statement of intent

At St Anne's Catholic Primary School, we understand that computer technology is an essential resource for supporting teaching and learning. The internet, and other digital and information technologies, open up opportunities for pupils and play an important role in their everyday lives.

Whilst the school recognises the importance of promoting the use of computer technology throughout the curriculum, we also understand the need for safe internet access and appropriate use.

Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

The school is committed to providing a safe learning and teaching environment for all pupils and staff, and has implemented important controls to prevent any harmful risks.
