Spend remaining:	£5,220		

Impact of premium use	
What has been the impact on pupils' participation?	An increased number of children now take part in sport. The school is participating in an increased number of competitions. Children enjoy participating competitively and are developing tactical play, team work and increased resilience.
What has been the impact on pupils' attainment?	Motor skills in Reception and key stage 1 have significantly improved better ready for skills of writing. The impact of values of PE and sport has a positive impact on whole school attendance (96.6%). Pupil's behaviour and self esteem continues to develop leading to better motivation, communication and social skills across all key stages.
How has the premium allowed pupils to develop active lifestyles?	The premium has allowed children access to join outside clubs. It has also given them experiences with sport that they would not have experienced: playing in a wide range of sports competitively and as an after school club, working with professionals from Aston Villa Football Club and Birmingham City Ladies and developing play times so they are focused on a range of activities for children to take part in.
How will the school sustain the improvements?	The school will use the funding to work with PE professionals from Bishop Challenor Catholic College, who will work to improve the quality of teaching and learning in PE. This will ensure members of staff have the skills to continue to develop children's skills and knowledge for PE and to have a healthy lifestyle. The investment in clubs will ensure children have the opportunity to complete exercise on a weekly basis and the Change For Life Club will give targeted children the knowledge and confidence to lead a healthier life style.
